HOW TO ACCESS OUR SERVICES

Clients under the care of Corrections can be referred by their case manager through Refer Online.

The completed referral will be assessed by a multidisciplinary team, consisting of representatives from SSF and Department of Corrections, against the eligibility criteria to evaluate suitability.

This process considers the client's risk of reoffending, evidence of completed rehabilitation, sustainability of changes made and behaviour within the prison environment. The outcome of referrals is made jointly between SSF and Department of Corrections

For more information about the referral process or for general enquiries, please contact us.
